Date :22. October, 2019

Mr. Mike Chua

Blk 5012 TECH place II, #01-05 Ang Mo Kio Avenue 5, Singapore 569876

Notification of project status

Product : Linear Motor

Type : AJM30-B2, AJM30-B4, AJM50-B2, AJM50-B4, AJM80-B2,
AJM80-B4, AJM100-B2 and AJM100-B4

Dear Mr. Mike Chua,

Your equipment, AJM-xx-B2, AJM-xx-B4 (where xx=30,50,80,100) had been assessed according to the design requirements of DIN VDE 0580:2011 with referring to checking result of type, AJM100-B4 as representative observing worst data in all models.

(AJM100-B4 is highest force and construction is same in all models.)

Please be informed, that in our opinion, the technical design of AJM-xx-B2, AJM-xx-B4 (where xx=30,50,80,100) were assessed sufficiently to assume compliance with the necessary conformity aspects for design as per requirement of DIN VDE 0580:2011 without sample selection for actual tests because of the similarity in construction of tested models.

If you have any questions concerning this project, please do not hesitate to contact us.

With kind regards,

Taizo Nonoguchi
Project Engineer
TUV Rheinland Singapore Pte Ltd
